Some of Dana’s more popular topics include:

1. It’s not the Disability; It’s the Ability
   We all have myriad disabilities. As a living example himself, Dana shows us how to focus on what we can accomplish, and encourages the physically challenged and the able-bodied to achieve their goals—no matter how wonderfully large or seemingly small. As Dana’s highly personal and passionately told story illustrates, abilities are endless. Disabilities are nonexistent.

2. Conquering Adversity
   At some time—at many times—we face adversity. Overcoming adversity seems easy for some, harder for others. Dana, who has persistently, gracefully, and triumphantly overcome adversity after losing his legs, will help each individual audience member overcome their own challenges as well, through discipline and a deep belief in their own power to succeed.

3. Mastering Change: The only constant
   Change is an unavoidable constant. Usually, change comes in small, continuous, and at times insidious adjustments to our reality: new information; a new job; a new client. Sometimes, as it did for Dana Bowman, change arrives all at once, with unspeakable force—an entire life forever altered. Learn from a man whose body, career, and perspective changed irrevocably in a split second. Become forever inspired by his determination to regain his life and reclaim his abilities. Dana’s story teaches us all to accept change—and accept only greatness!
